BCH HealthCare

One Children's Place
St. Louis, Missouri 63110-1077

Dear Name,

The employees of St. Louis Children's Hospital know better than anyone that kids love playtime. After all, playing is what children do best! As health care professionals, we strive each day to provide the kind of care that will get kids back on their feet so they can do just that.

On **Friday, April 7**, we will kick off the *Time To Play* campaign—a special hospital-wide project that will put smiles on the faces of some of our patients' favorite visitors... their brothers and sisters. This effort is the employees' part of the overall \$125 million *Care and Cures* campaign.

To celebrate the kickoff, you are welcome to dress down on April 7. You're even welcome to wear blue jeans. Watch for people handing out fun gifts during shift changes!

Get ready to learn how you can participate in *Time to Play* and help fund a new Sibling Playroom. Look for us or a member of the St. Louis Children's Hospital Foundation at your departmental staff meeting in April or May to tell you more about this exciting effort.

See you soon!

Johanna Schloemann
Time to Play Co-Chair
